GEHENNA: DEATH VALLEY

EPISODE 6

Alright... We're safe here. How's your eye?

Sore. You're sure they can't see us?

Yes, 100%. It's going to get really bright...

Hi! How're you feeling?

What's wrong!? Max!?

Don't panic! This is the safest place to be, for now.

Lee and I are the only ones who can help you get out of Gehenna.

Out of what?

Gehenna.

Uh... what's Gehenna?

It's... it's this region!

You really don't know!?

Wait, of course you don't! It was before your time...what do they call this region now?

Henagen Valley. "Where the WiFi ends and adventures begin!".

Ugh! Yes... so they rebranded it.

Do either of you know about "The Great Disaster"?

Um, before you continue...

Who are you, and what...

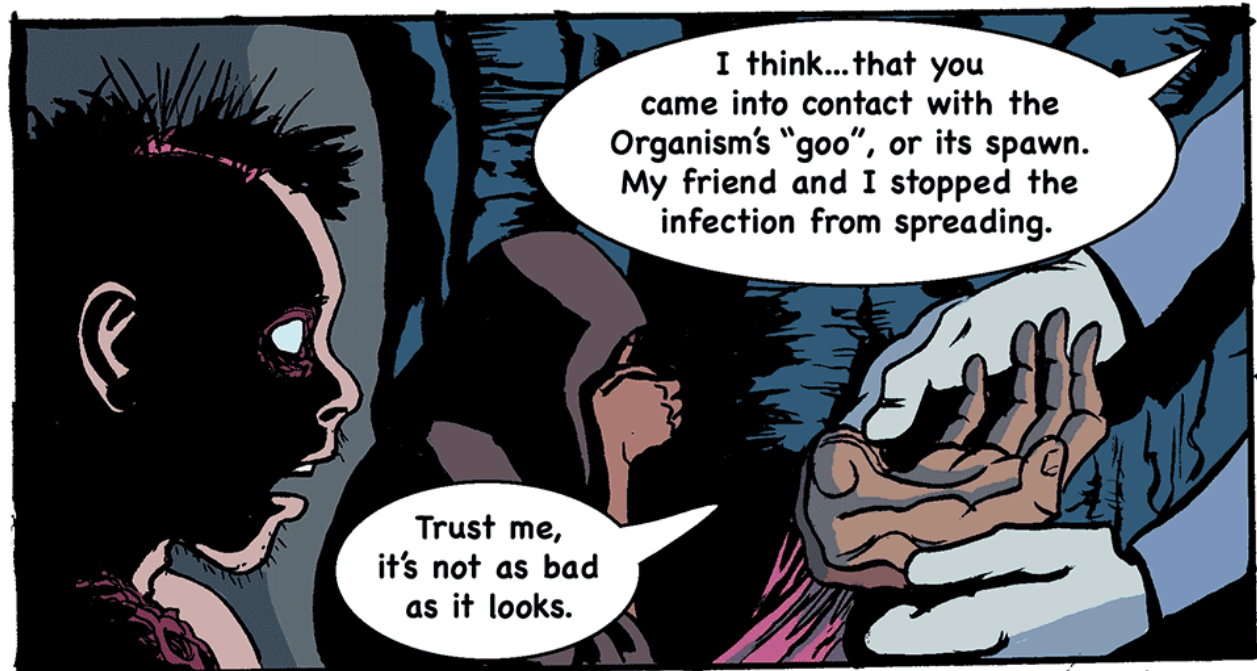

...What did you do to me!?

Call me Dr. J. I use to "work" here with Lee and the others, but I left.

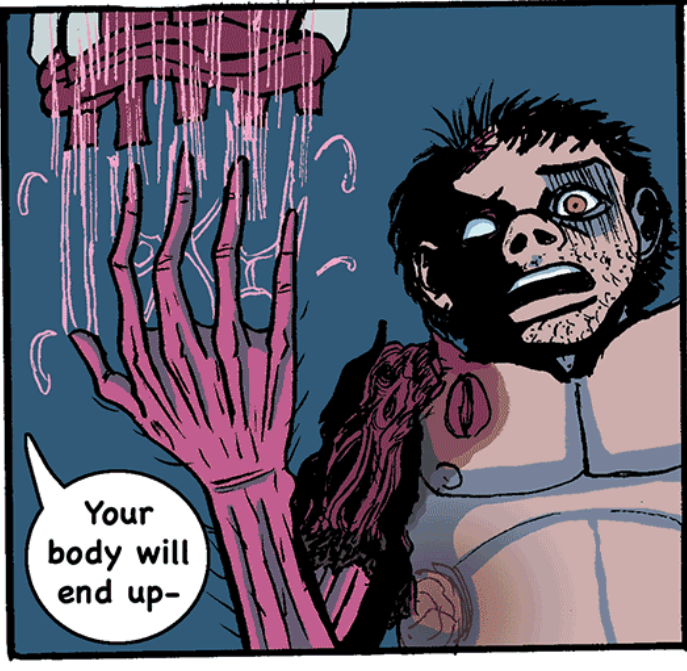

Escaped!

Not now, Lee! Not now...

I think...that you came into contact with the Organism's "goo", or its spawn. My friend and I stopped the infection from spreading.

Trust me, it's not as bad as it looks.

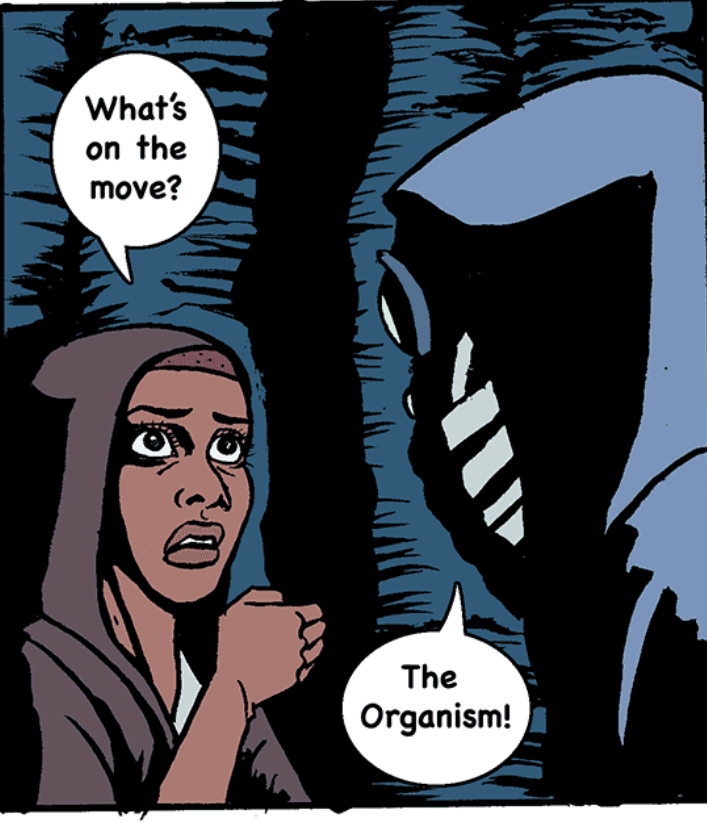

Your body will end up-

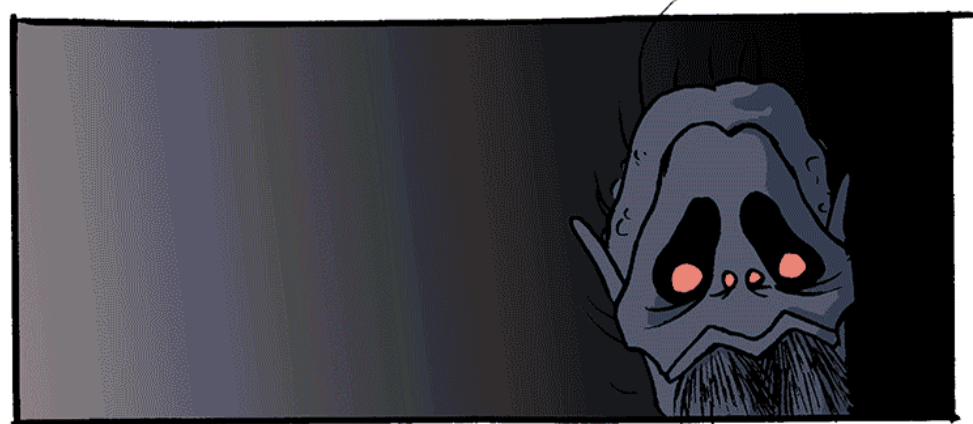

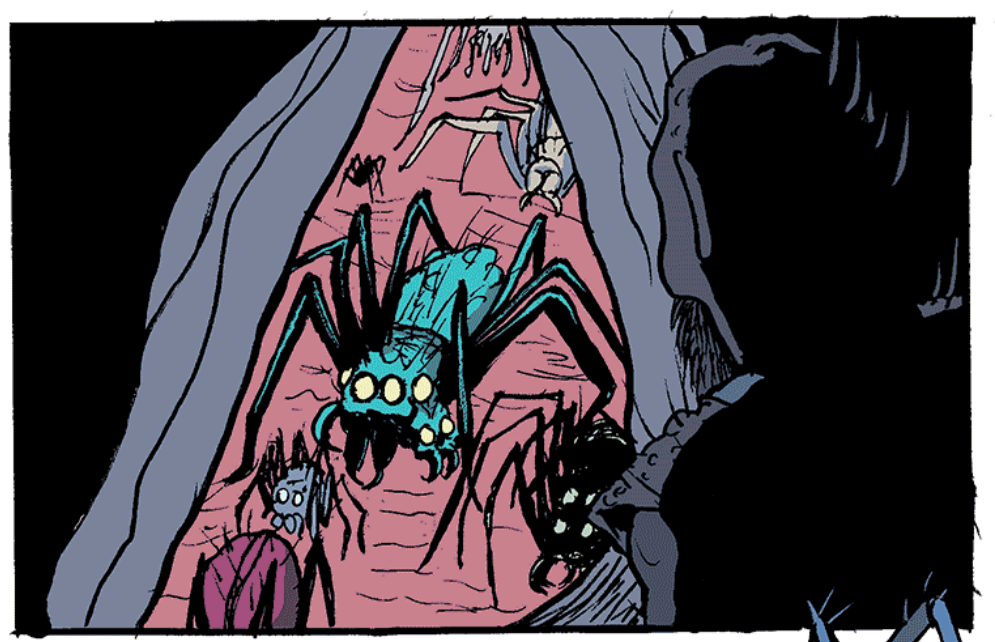

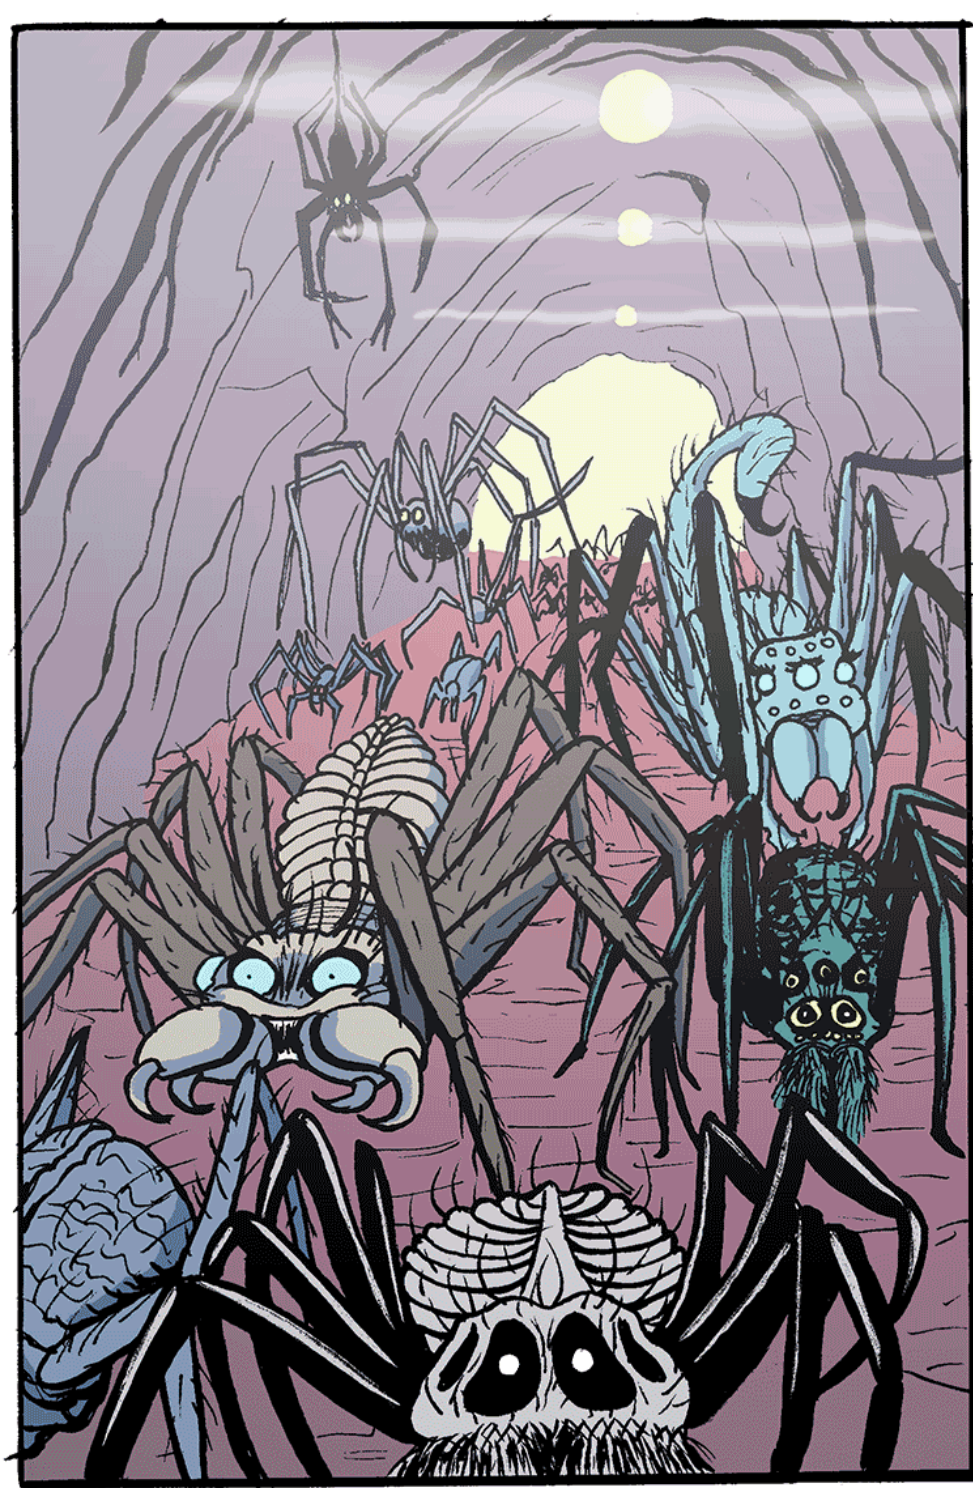

It's on the move, towards the loading docks!

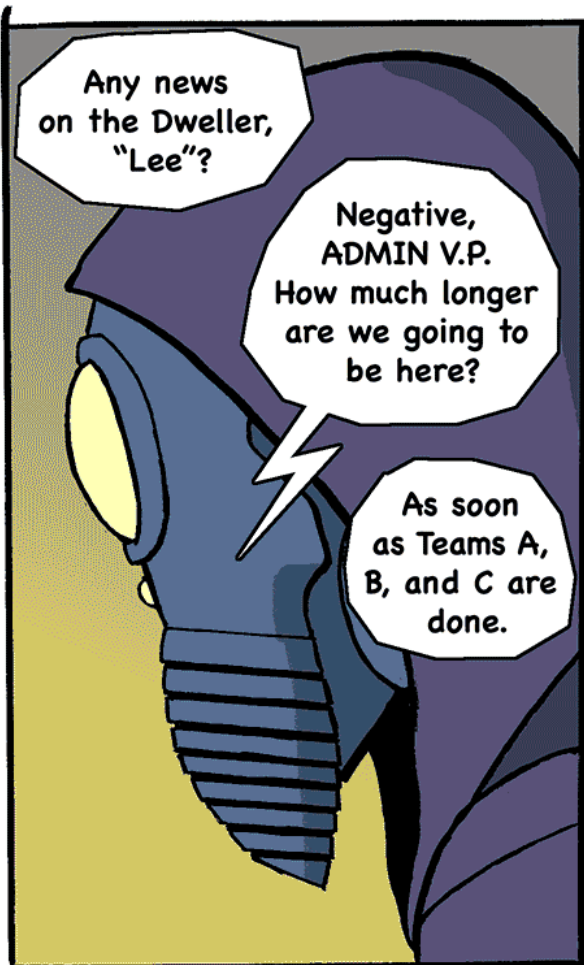

Then we've got to get going!

What's on the move?

The Organism!

Any news on the Dweller, "Lee"?

Negative, ADMIN V.P. How much longer are we going to be here?

As soon as Teams A, B, and C are done.

There's barely any progress! What are they doing!?

I don't know, why don't you call one of the ADMIN Leaders?

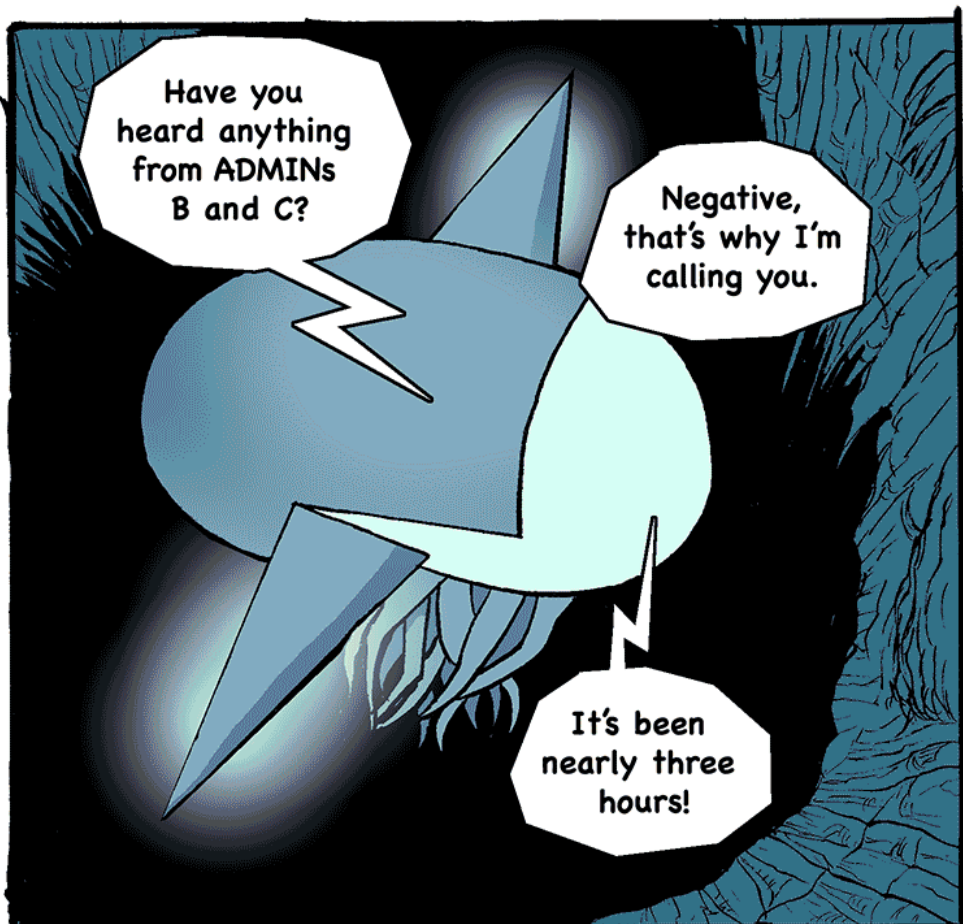

Isn't that your job, ADMIN V.P.?

I'm very busy right now!

ADMIN A, this is ADMIN Leader D. Are you there?

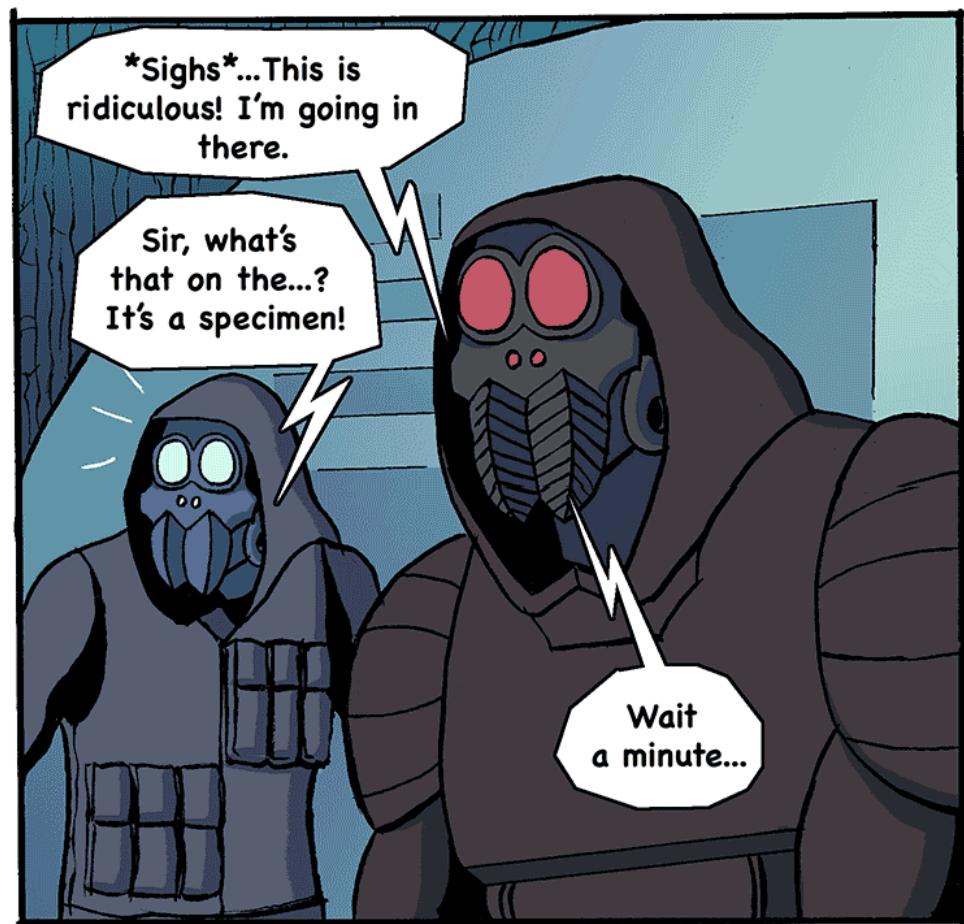

Yes-

Have you heard anything from ADMINs B and C?

Negative, that's why I'm calling you.

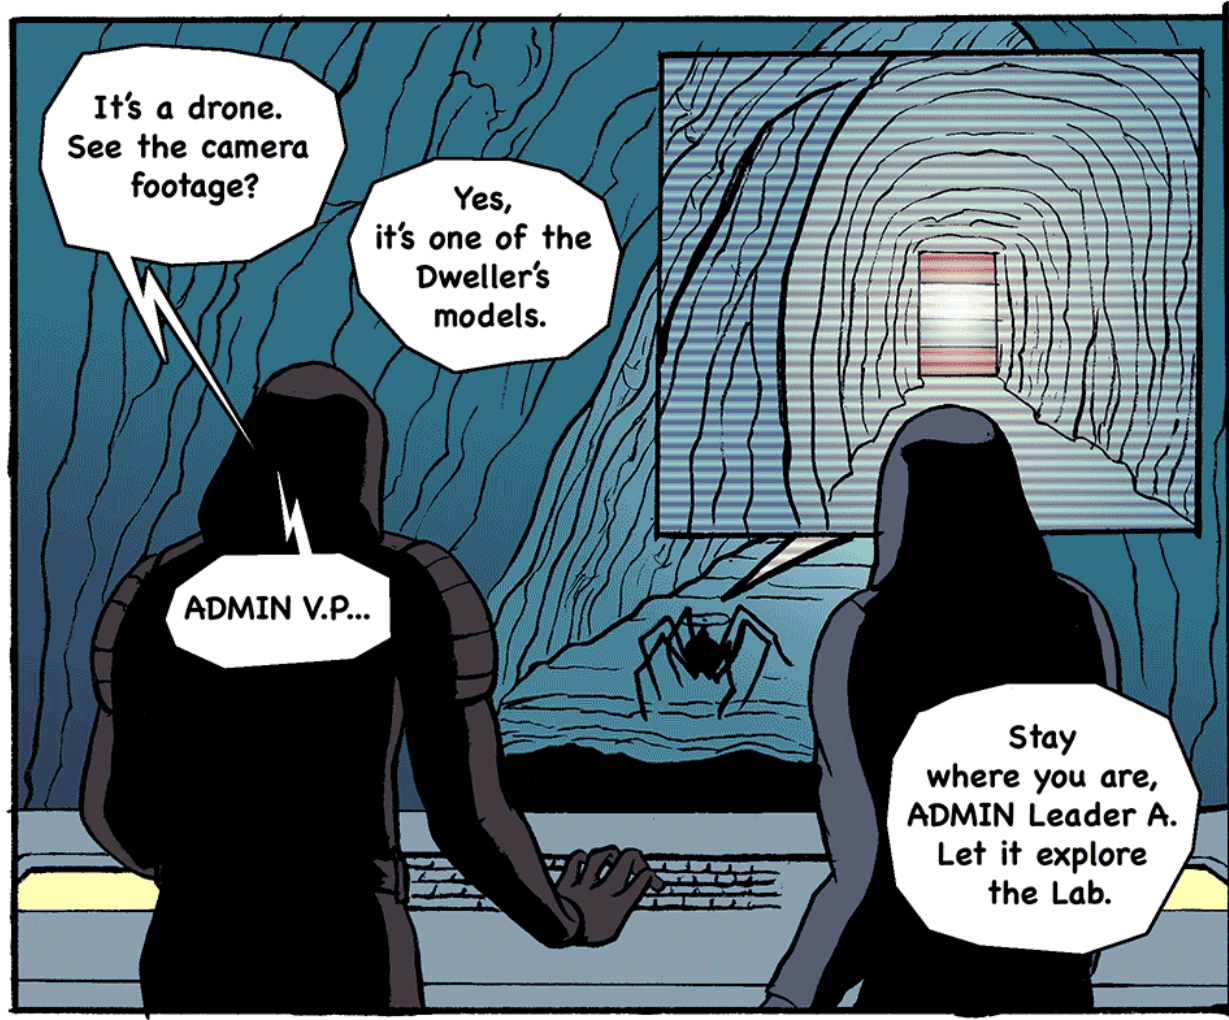

It's been nearly three hours!

Sighs...This is ridiculous! I'm going in there.

Sir, what's that on the...? It's a specimen!

Wait a minute...

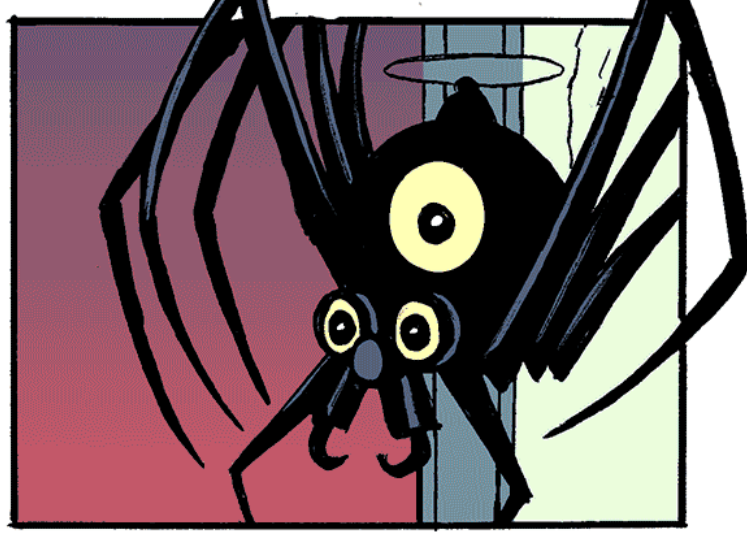

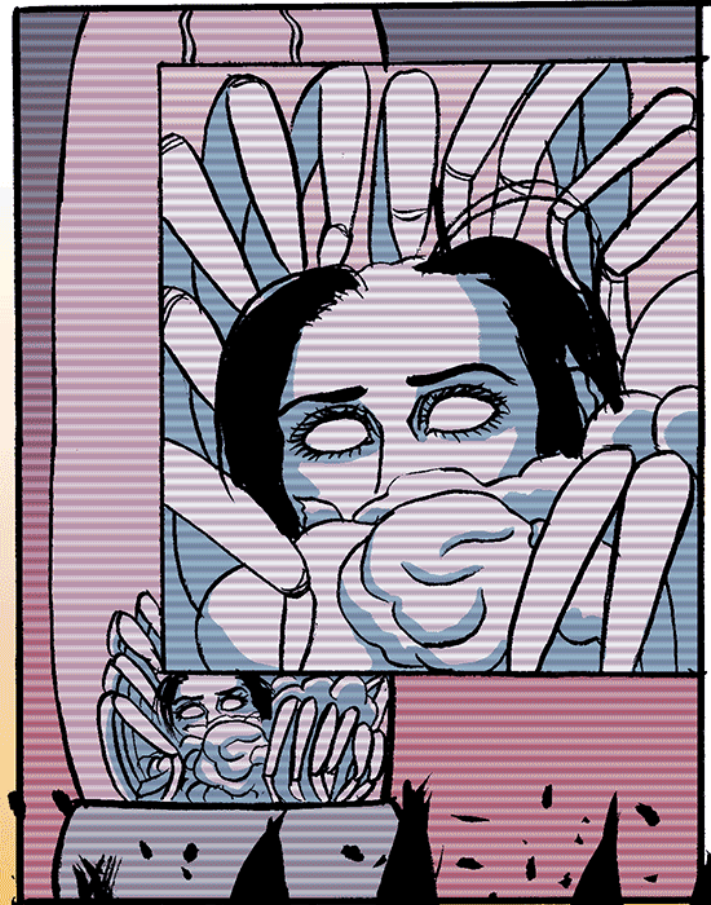

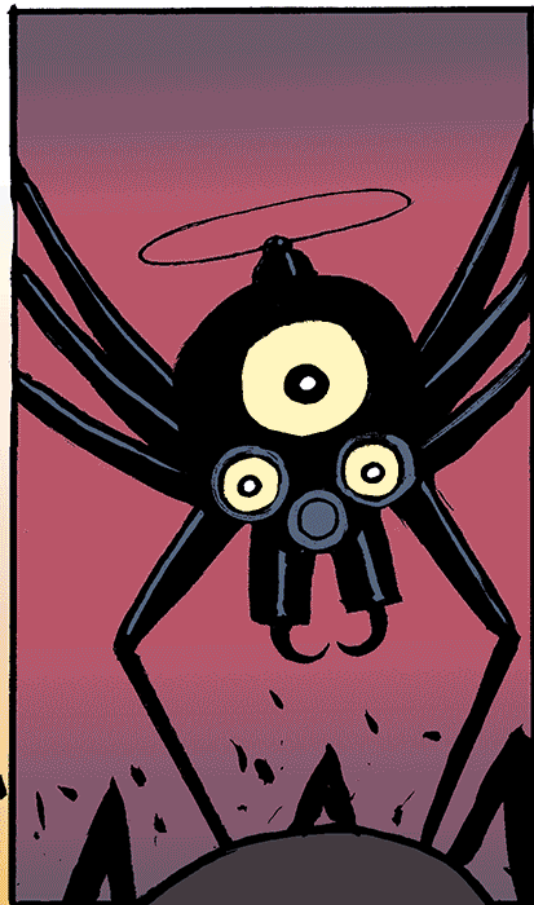

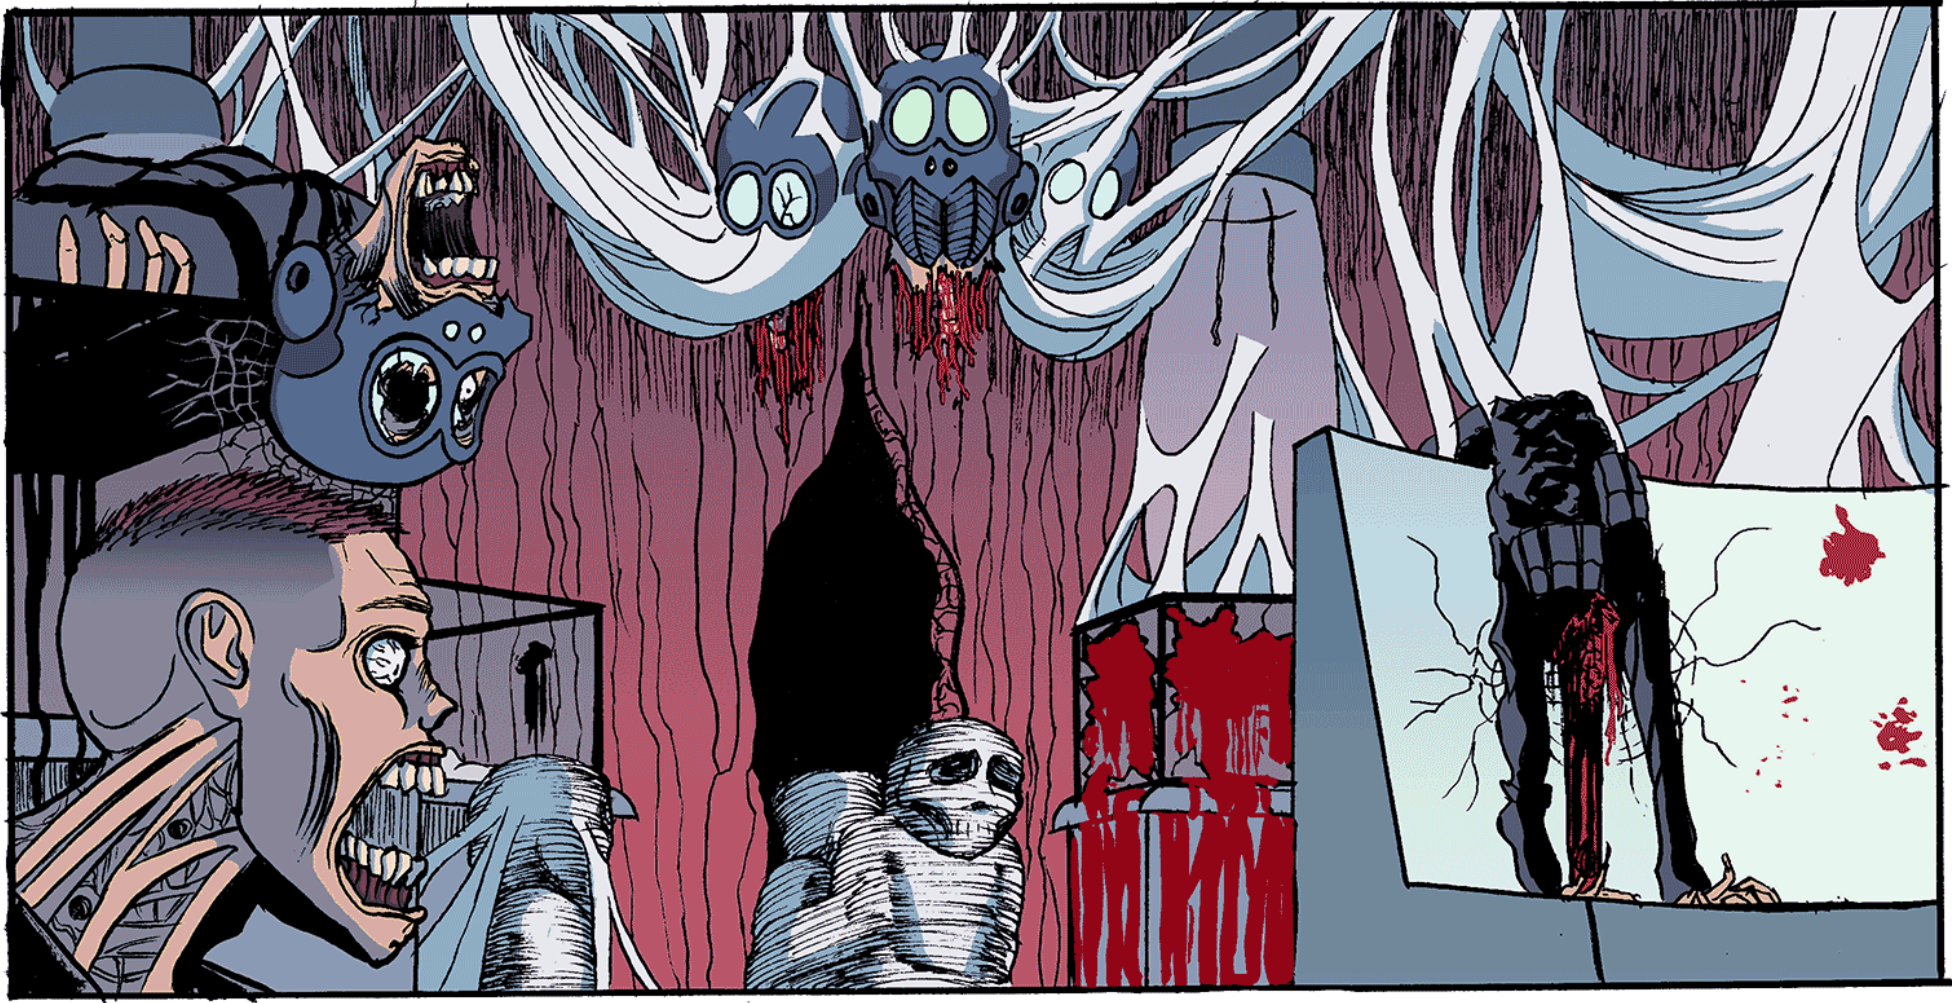

It's a drone. See the camera footage?

Yes, it's one of the Dweller's models.

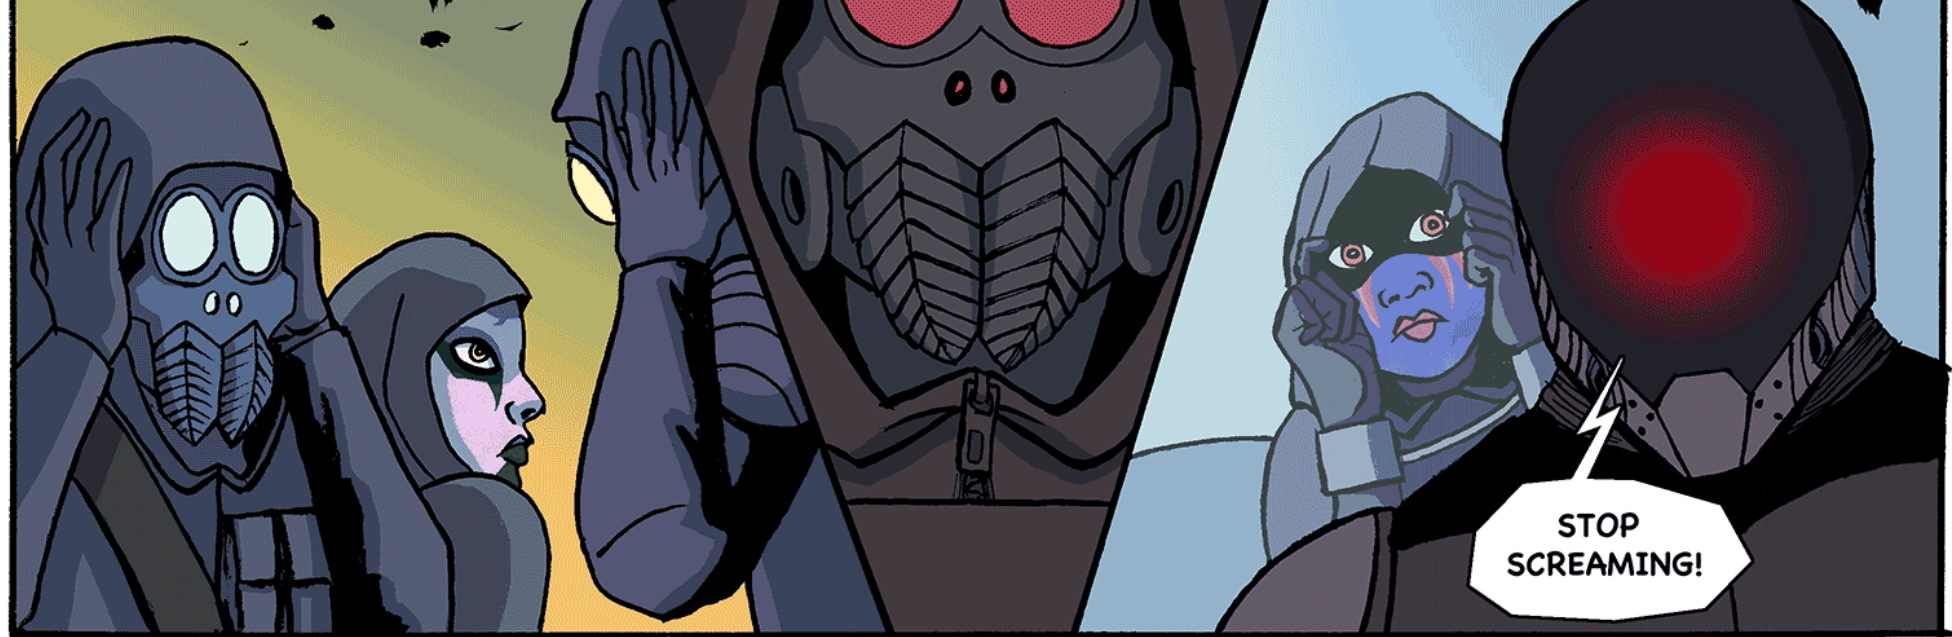

ADMIN V.P...

Stay where you are, ADMIN Leader A. Let it explore the Lab.

AAAAA

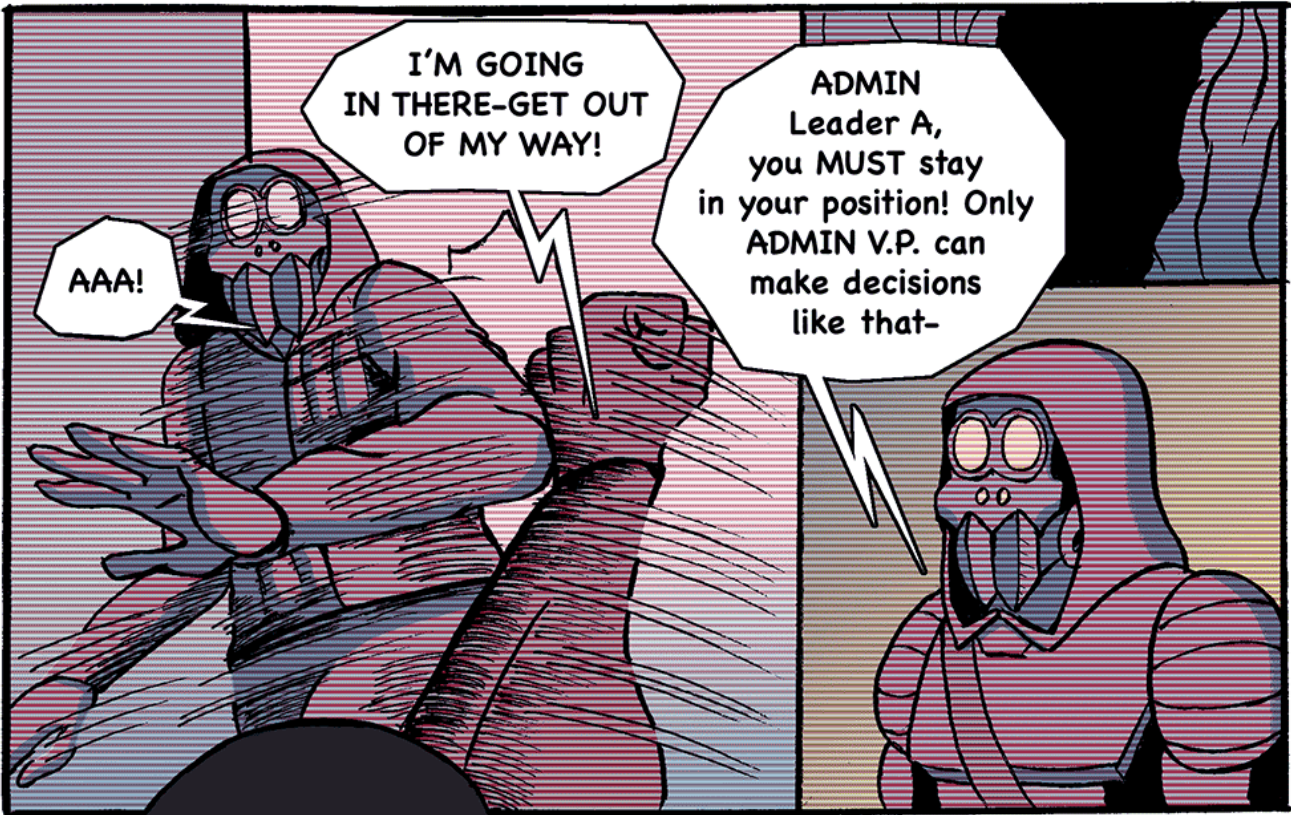

STOP SCREAMING!

Let's...
Let's be
calm about
this.

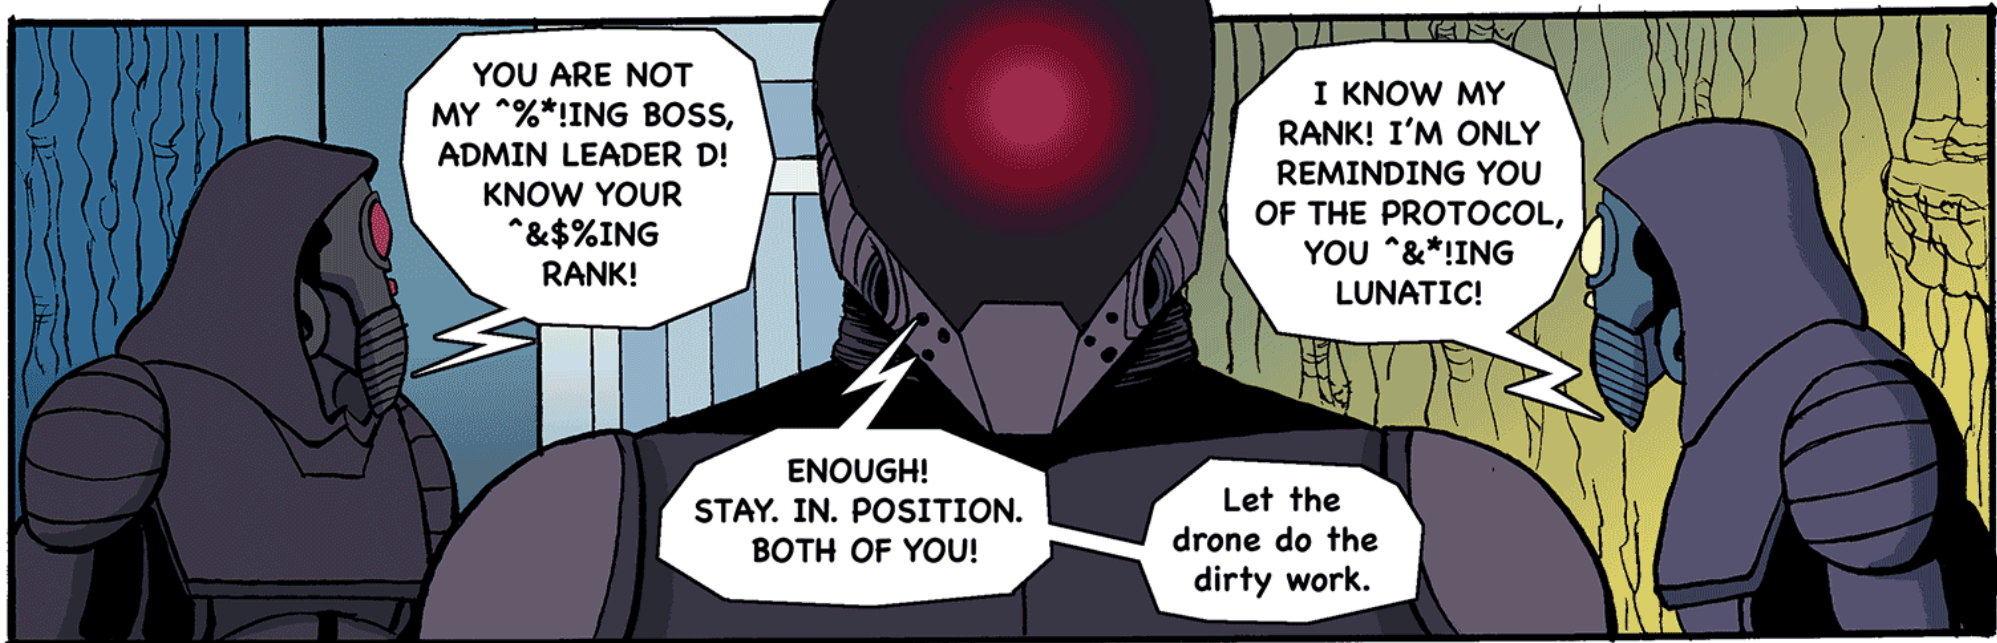

&^\$@
that!

AAA!

I'M GOING
IN THERE-GET OUT
OF MY WAY!

ADMIN
Leader A,
you MUST stay
in your position! Only
ADMIN V.P. can
make decisions
like that-

YOU ARE NOT
MY ^%*!ING BOSS,
ADMIN LEADER D!
KNOW YOUR
^&\$%ING
RANK!

I KNOW MY
RANK! I'M ONLY
REMINDING YOU
OF THE PROTOCOL,
YOU ^&*!ING
LUNATIC!

ENOUGH!
STAY. IN. POSITION.
BOTH OF YOU!

Let the
drone do the
dirty work.

I know
you can see
now. Take a
good look at
it.

This is the
closest that you'll
get to your home
planet.

The new
location doesn't have
ANY portals.

No one is
coming for you.

What do
you know
about Lab1?

I will
find out,
so you might
as well
speak...

Very
well.

Any more messages from the other side?

Nope. Not since they sent back that drone that's guiding us.

Hmm... you're still confident that they'll arrive?

Yes.

Who are we meeting?

Oh, don't worry about that for now-

How're you doing son? Need anything else to eat?

No thanks.

Don't look at me like that!

He's fine, really! His voice will probably be the same.

Good thing yours hasn't changed.

Wanna hear a little secret?

That could be you too.

However, you're exceeding my expectations!

Hold on, you did this to my arm!

Yes. My friend, (the giant), felt bad for you, and Max. He also wanted to mess with ADMIN's plans.

What plans-?

Shh!

(ADMINS).

BZZZ

Hey! My helmet isn't working! Hello?

Hello? HELLO?

ADMIN A, what's the latest from the drone?

Can't you see for yourself?

I'm busy with the specimens, and the Dweller.

It's a ^&*@ing graveyard.

This is looking hopeless.

Agreed.

ADMIN Leader C is dead...

...And so is ADMIN Leader B.

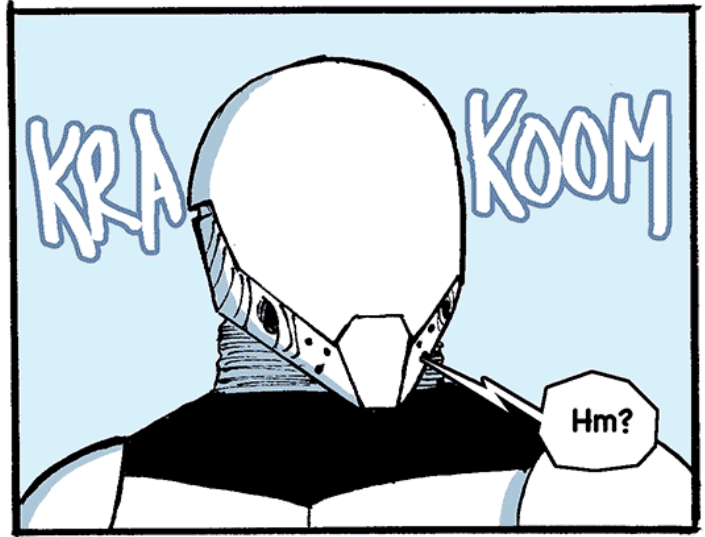

No survivors?

A specimen emerged from the patient.

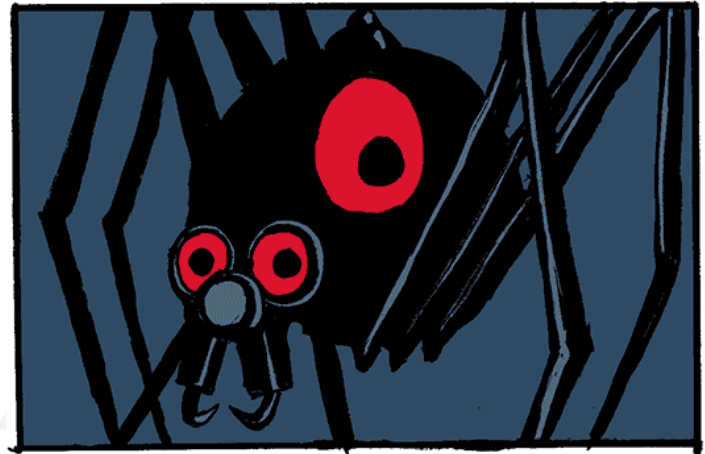

It had some help with its escape...

ADMIN V.P., We're closing shop real soon.

Good, ADMIN D. ADMIN A, bring the ship back to the loading dock.

Hm?

Dammit! we're at that tunnel again.

That specimen probably left to join the horde.

I hope you're right.

Anika?

Why did you come back for me?

Well, I felt guilty leaving you behind...

I also didn't trust Marcie. Lurn and I talked.

Ah, so you figured it out.

Whenever I hug out with Sean... She talked, nonstop. She was jealous of you and Lauren.

She once thought that Sean was into you.

For real!? Why??

We were only "bros".

I know, but, Sean was &*\$^ing Lauren.

You serious!?

Walked in on them.

Did you hear that?

Yep. Shit!

FREEZE!
Don't move!

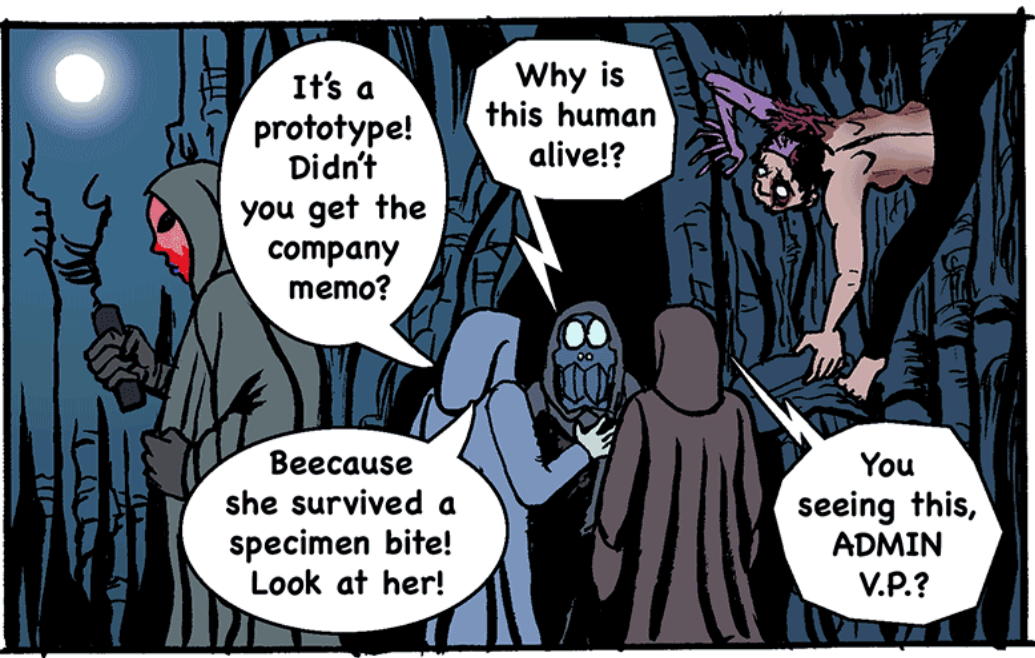

Hands up-

WAIT!
I'm with ADMIN!

I-I mean, she's with me!

Your helmet looks... small.

It's a prototype! Didn't you get the company memo?

Why is this human alive!?

Beecause she survived a specimen bite! Look at her!

You seeing this, ADMIN V.P.?

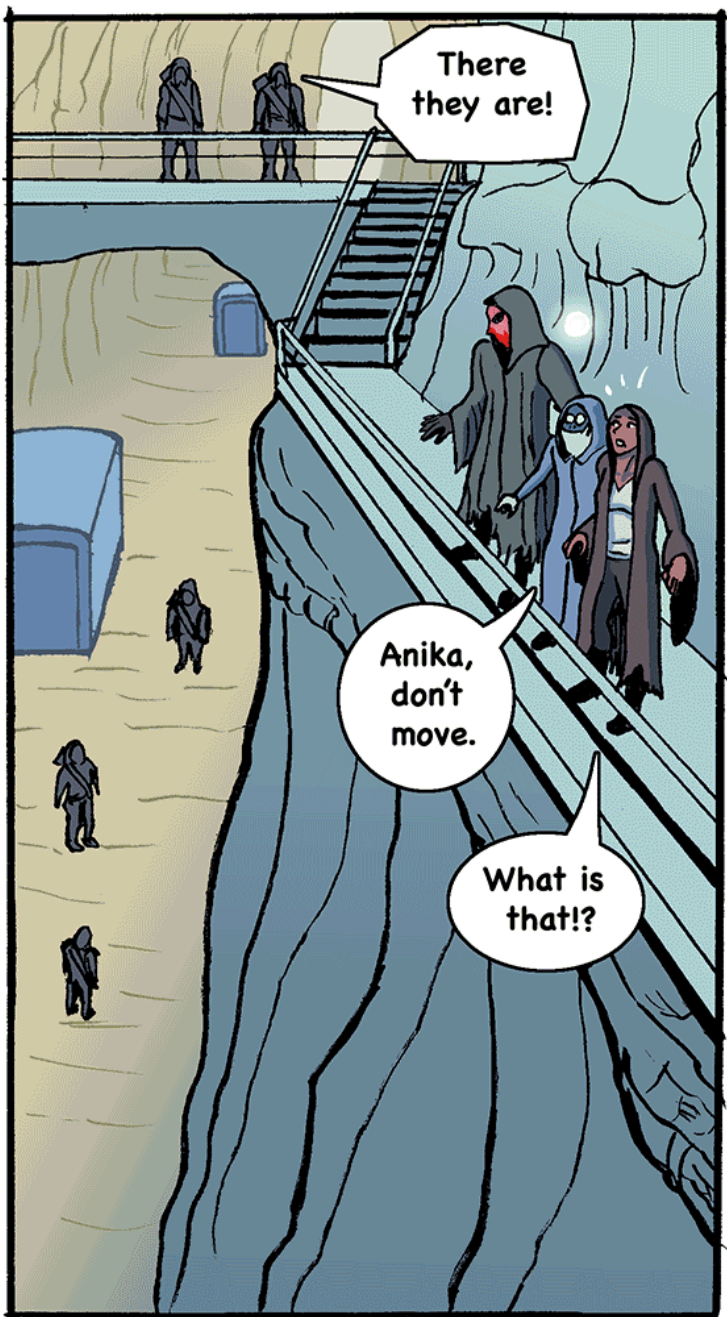

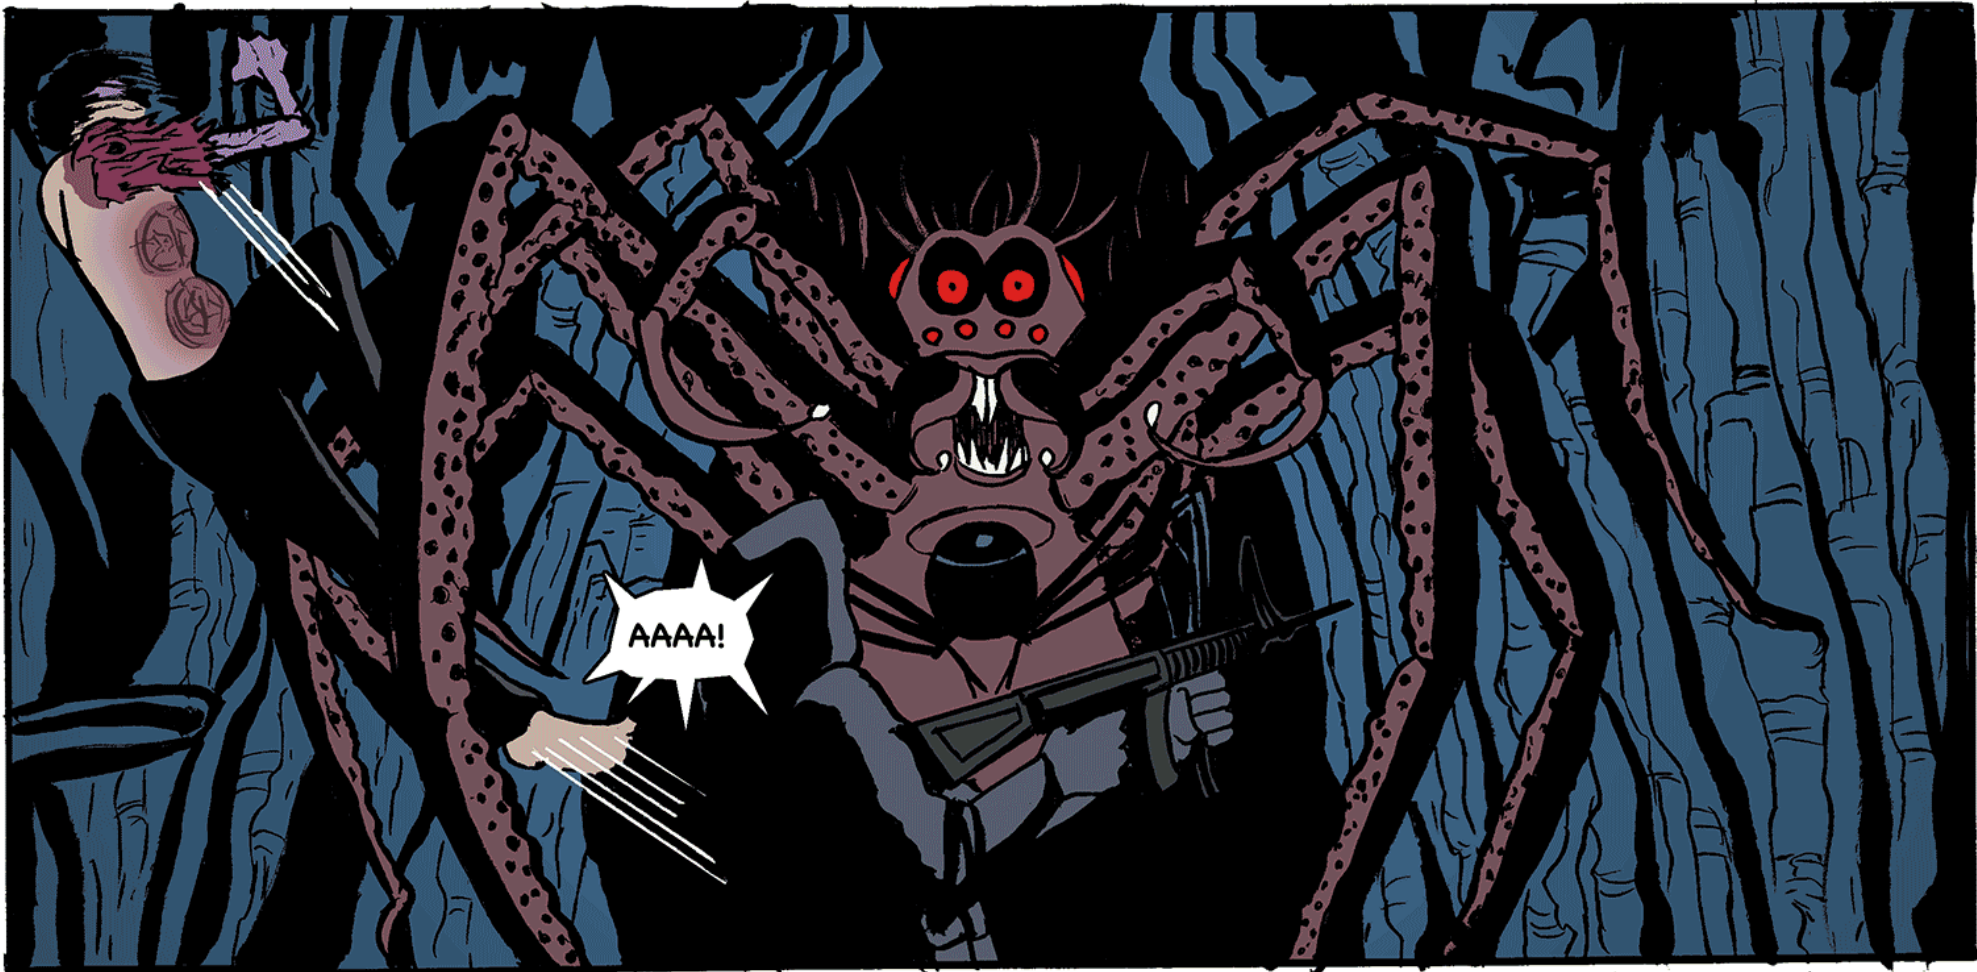

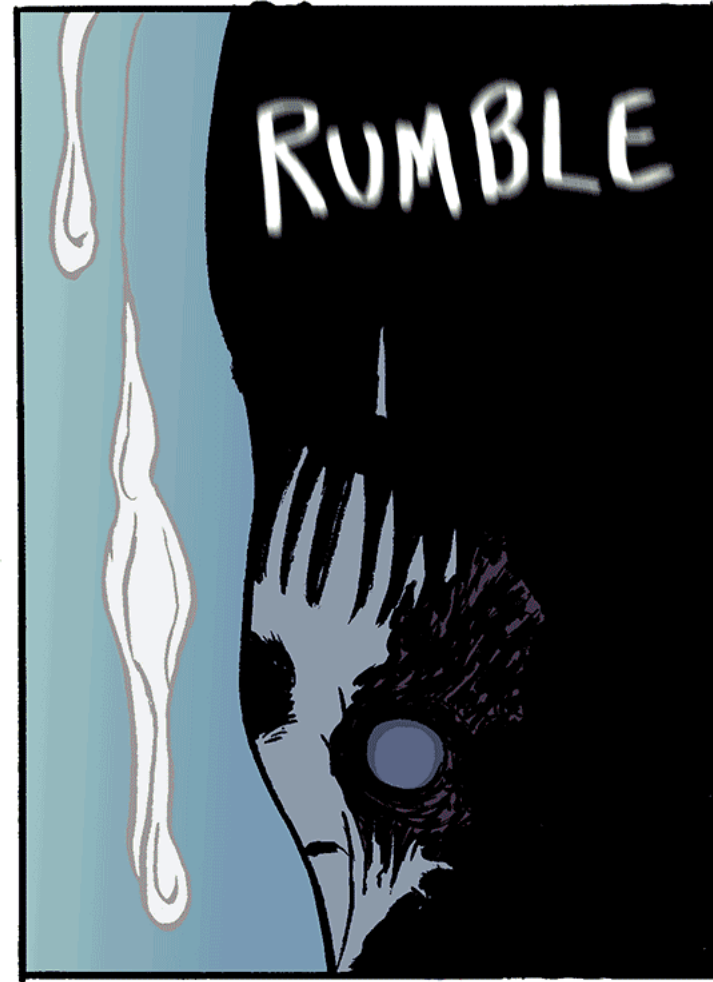

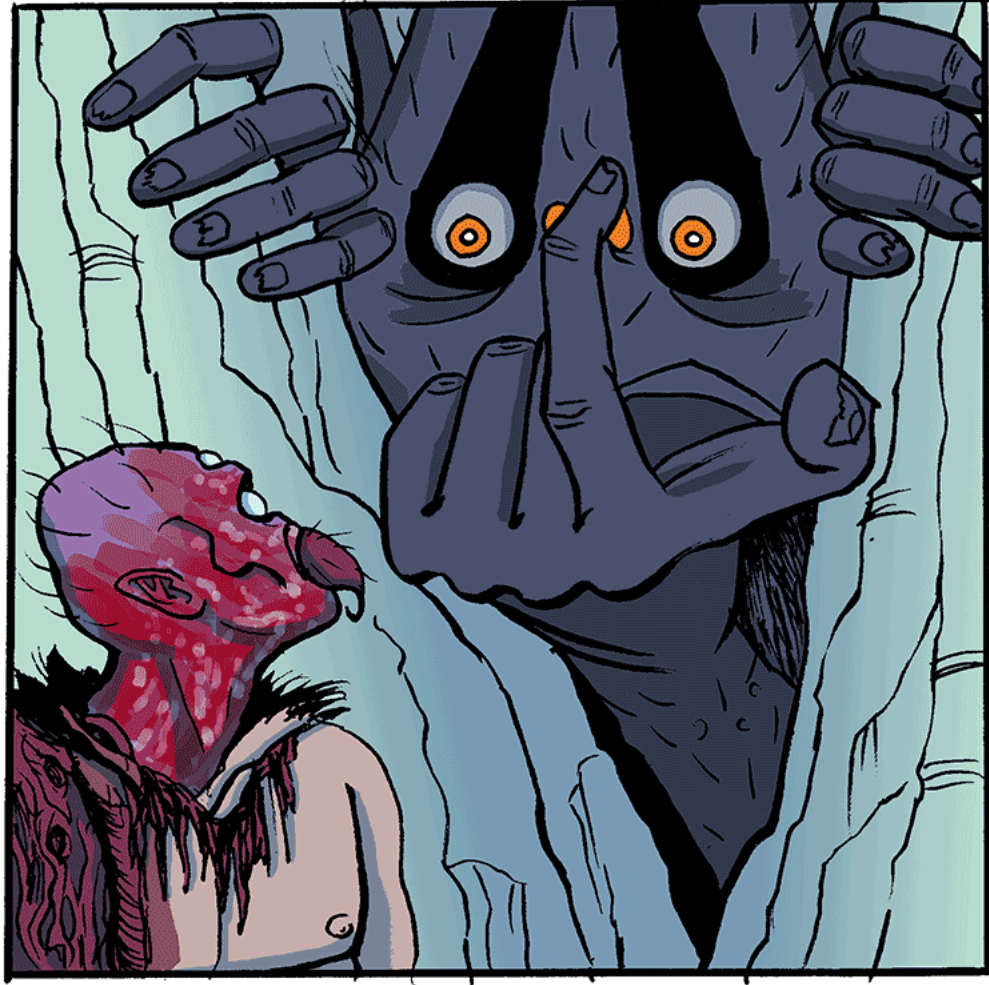

(Damn!) Step aside...

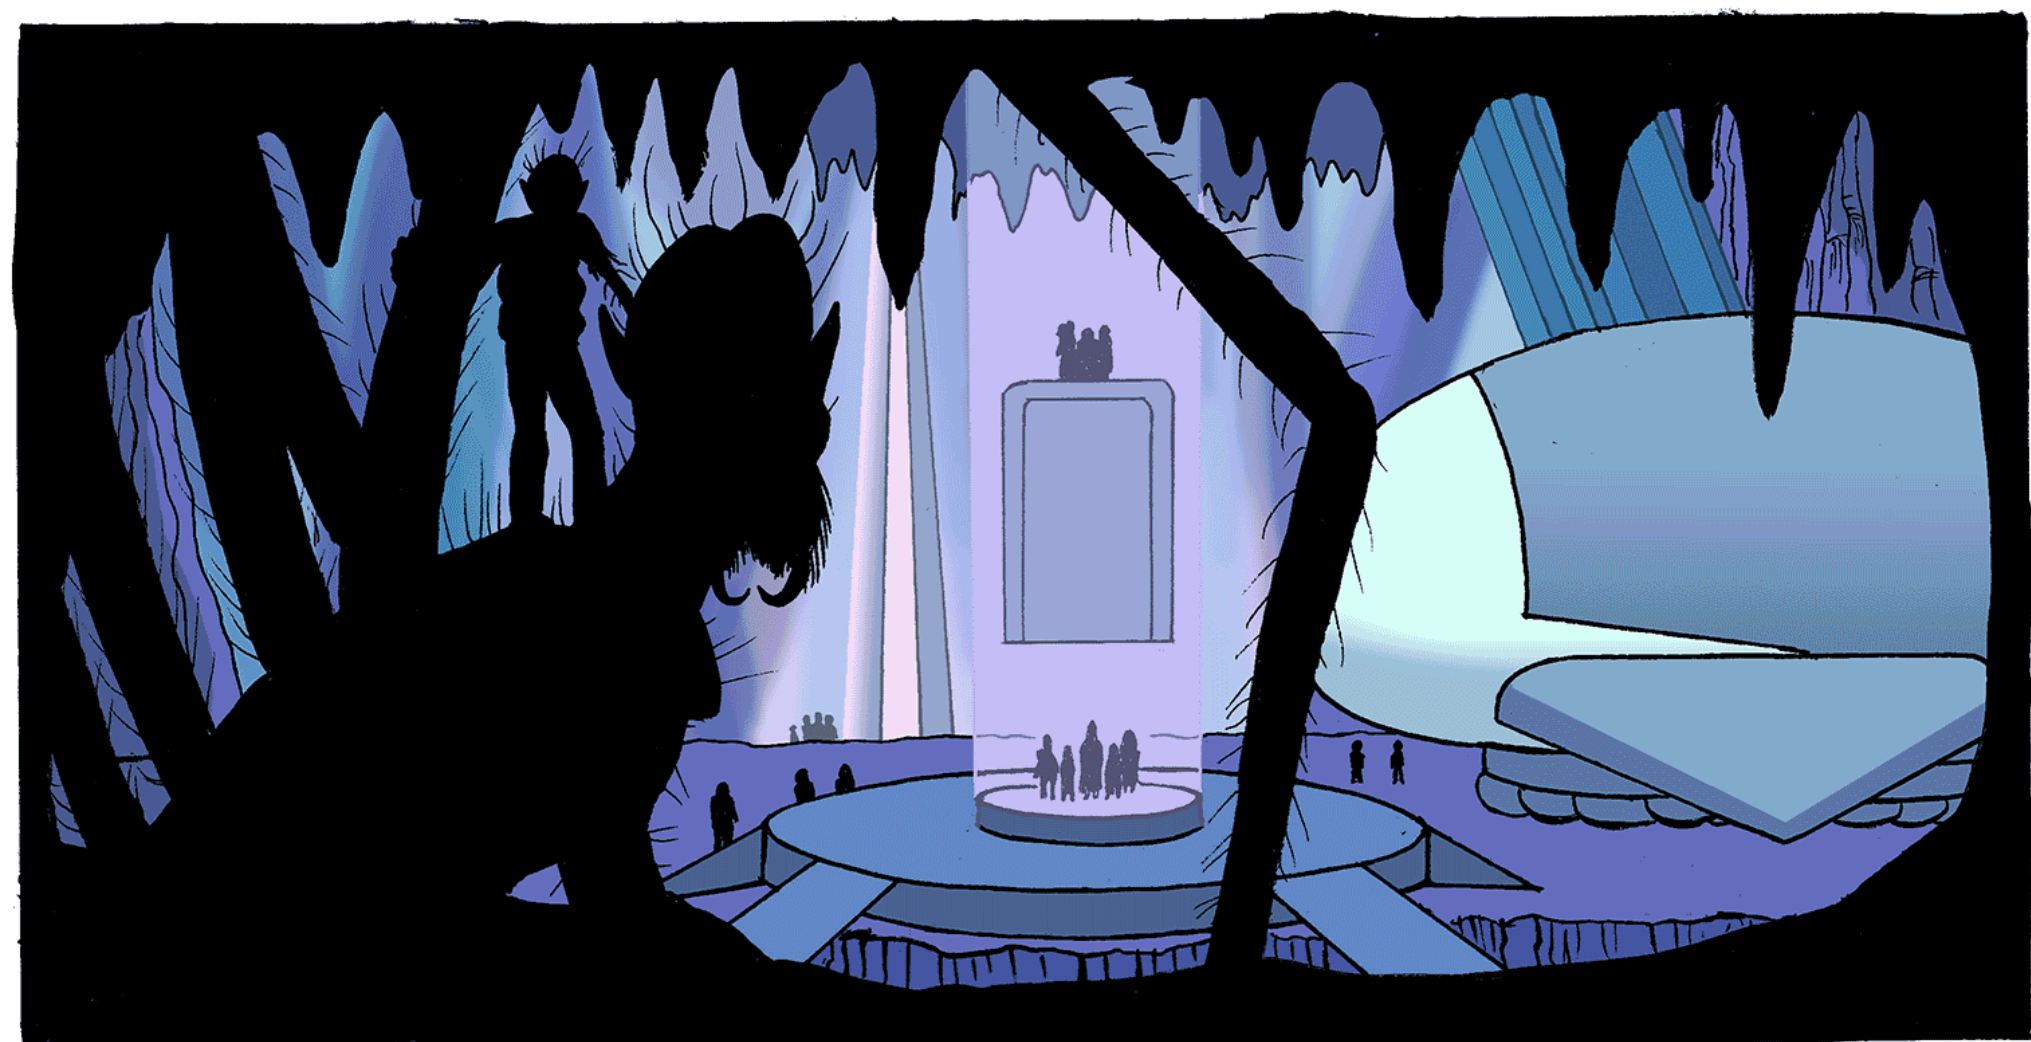

HEY!
OOOF!

!!!

ADMIN
Leader D,
bring the Dweller
Lanchester
to me.

Yes,
ADMIN
V.P.

We're
going to have
a nice little
runion!

ZZPT
WE WEREN'T
SEPARATED FOR
THAT LONG.

You don't
know about the
others?

YOU
MEAN LEE?
THE OTHERS
ARE DEAD!

Not
quite.

Let's
see if you
recognize
him...

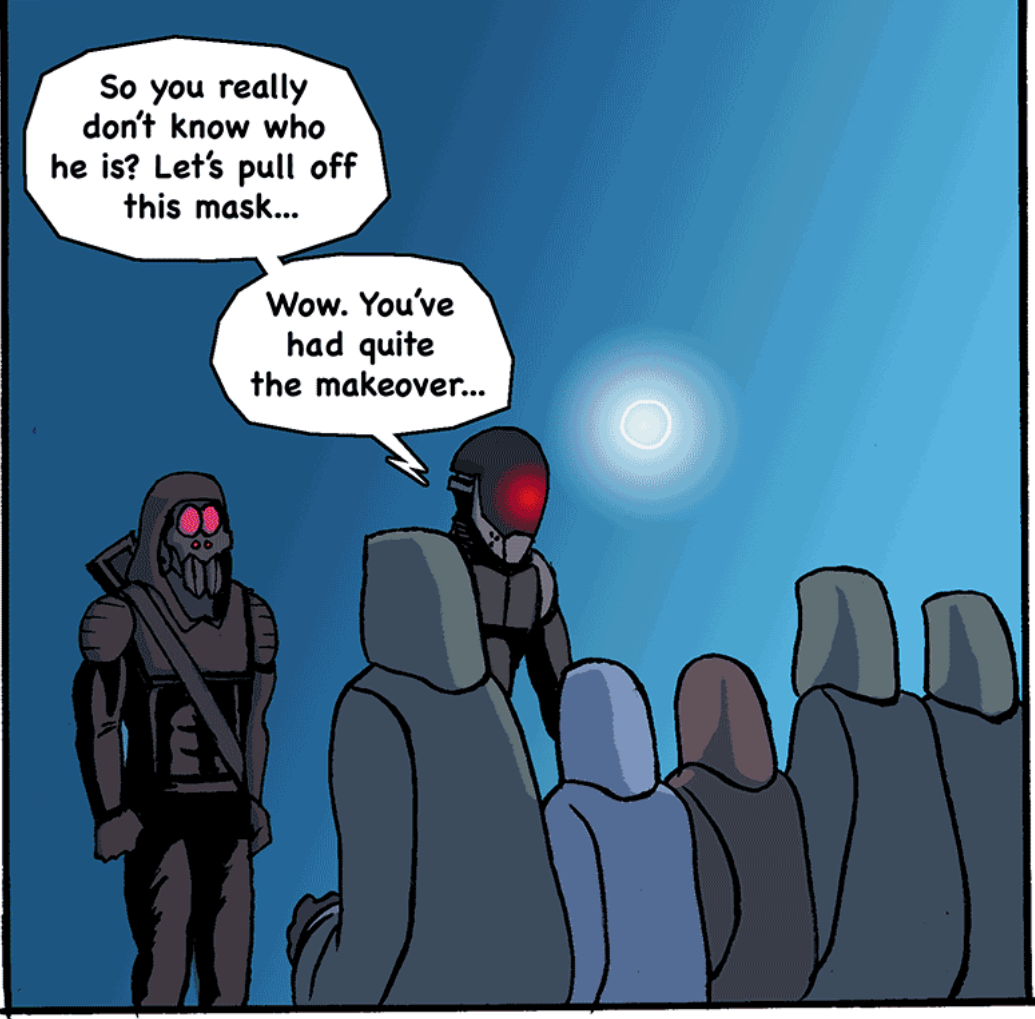

CRACKLE Chaney!

I *fzzt* dunno.

LAN, WHO'S THAT IN THE PURPLE COAT?

Since when do you talk!?

Bring them here!

So you really don't know who he is? Let's pull off this mask...

Wow. You've had quite the makeover...

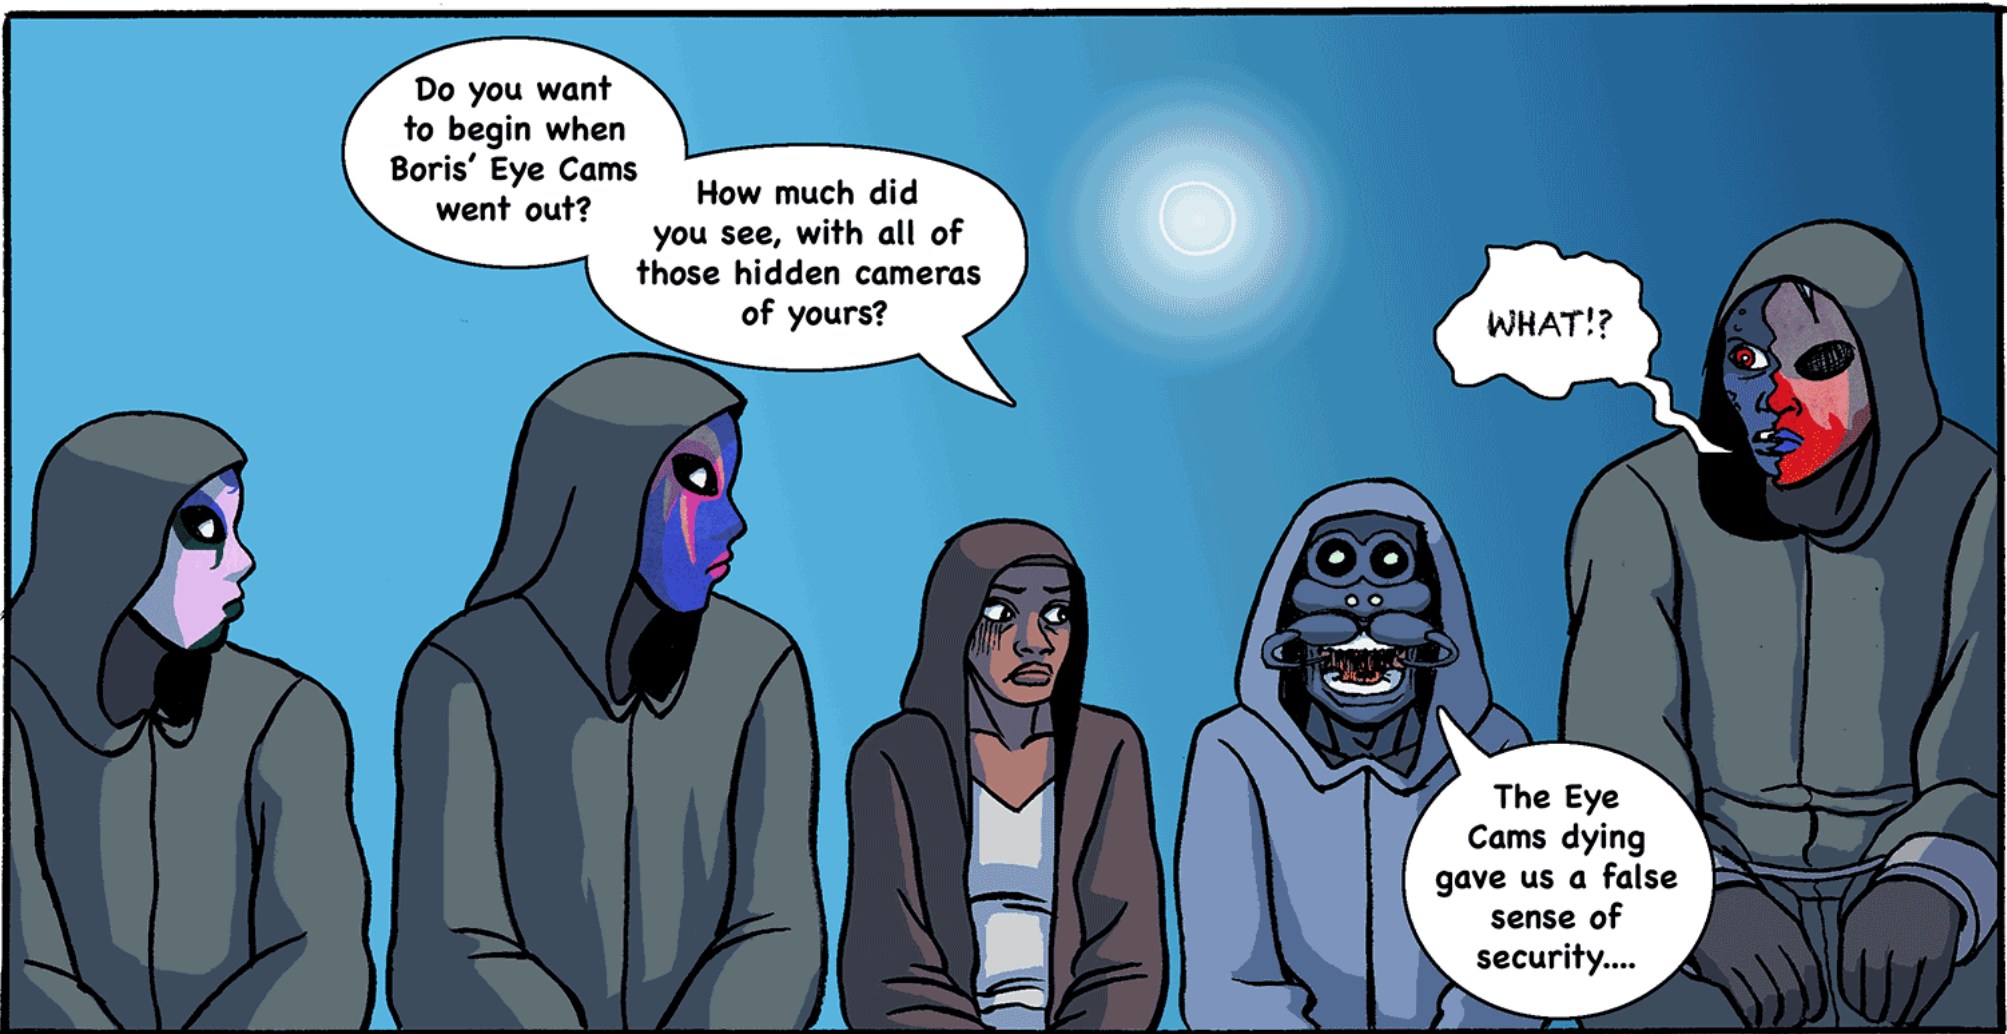

... "Dr. J"! A.K.A...

YES, you've driven the point home. Anyway, this face is a blessing in disguise.

That's interesting, tell us more!

You're the one who's suppose to know everything! Go on, tell them!

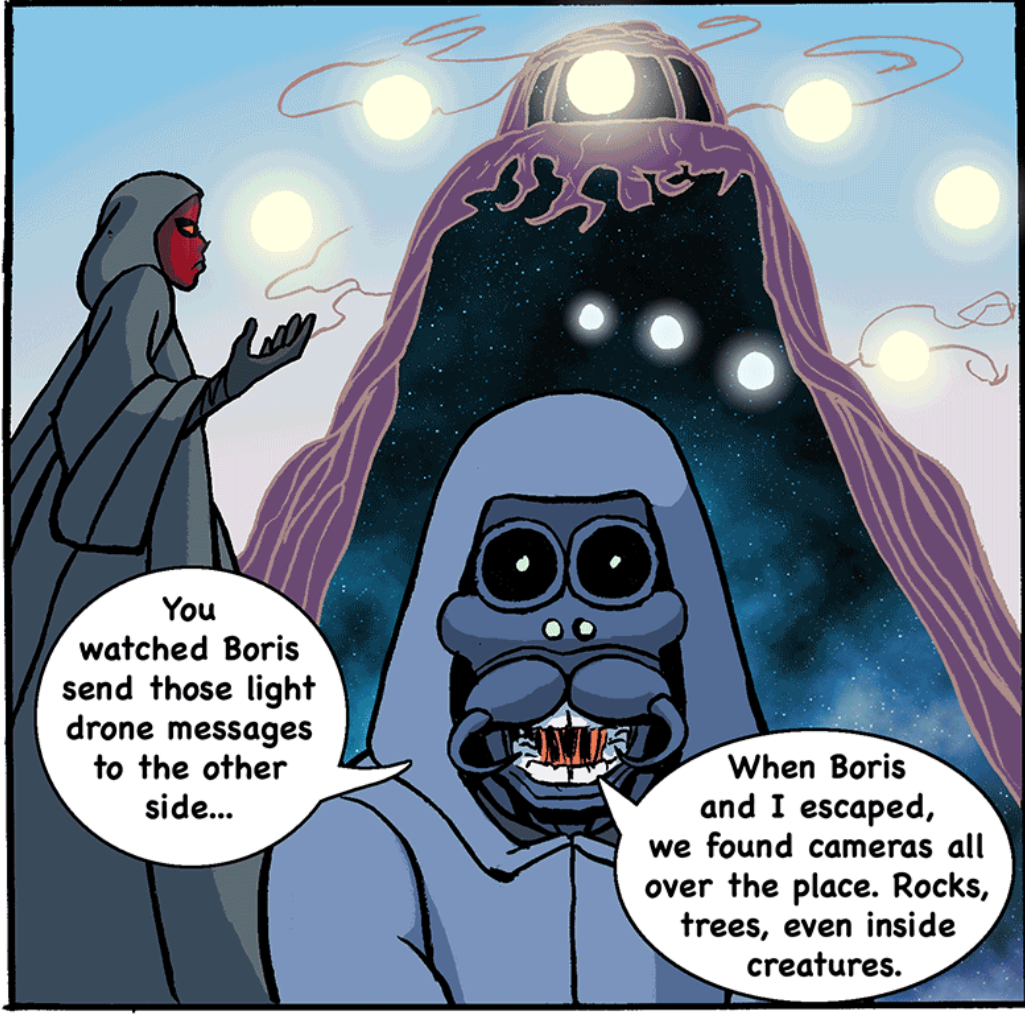

Do you want to begin when Boris' Eye Cams went out?

How much did you see, with all of those hidden cameras of yours?

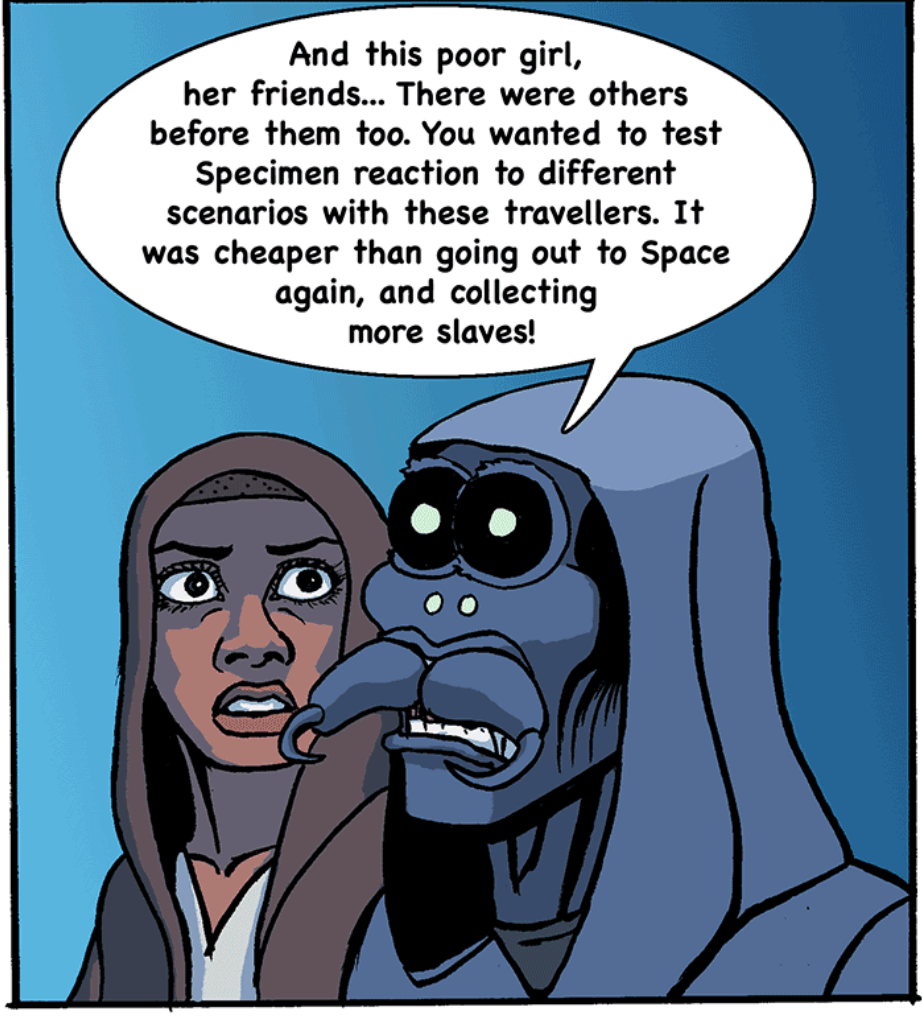

WHAT!?

The Eye Cams dying gave us a false sense of security....

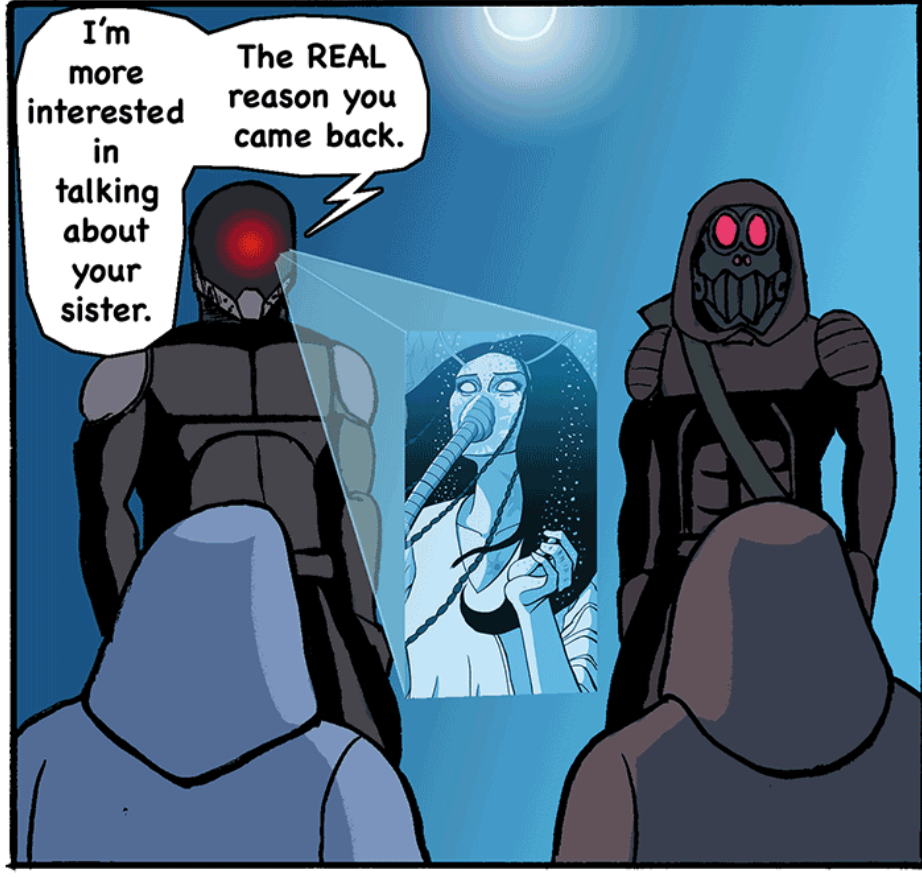

You watched Boris send those light drone messages to the other side...

When Boris and I escaped, we found cameras all over the place. Rocks, trees, even inside creatures.

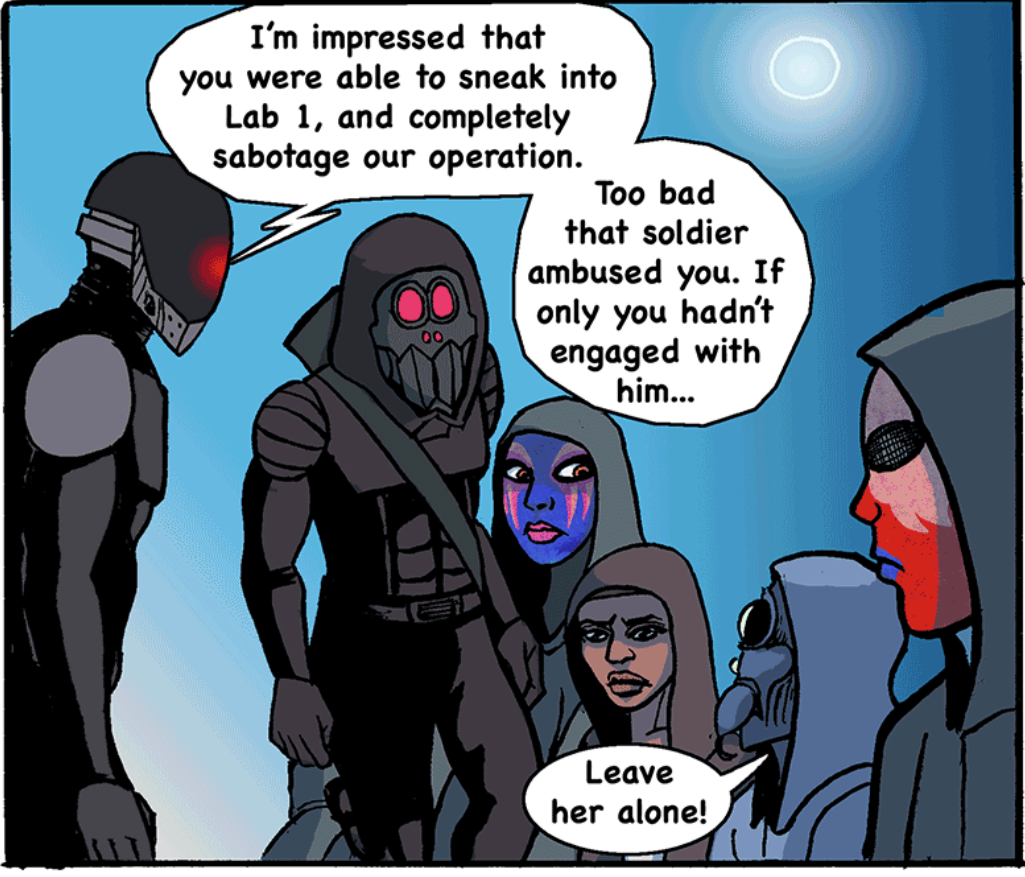

And this poor girl, her friends... There were others before them too. You wanted to test Specimen reaction to different scenarios with these travellers. It was cheaper than going out to Space again, and collecting more slaves!

I'm more interested in talking about your sister.

The REAL reason you came back.

I'm impressed that you were able to sneak into Lab 1, and completely sabotage our operation.

Too bad that soldier ambused you. If only you hadn't engaged with him...

Leave her alone!

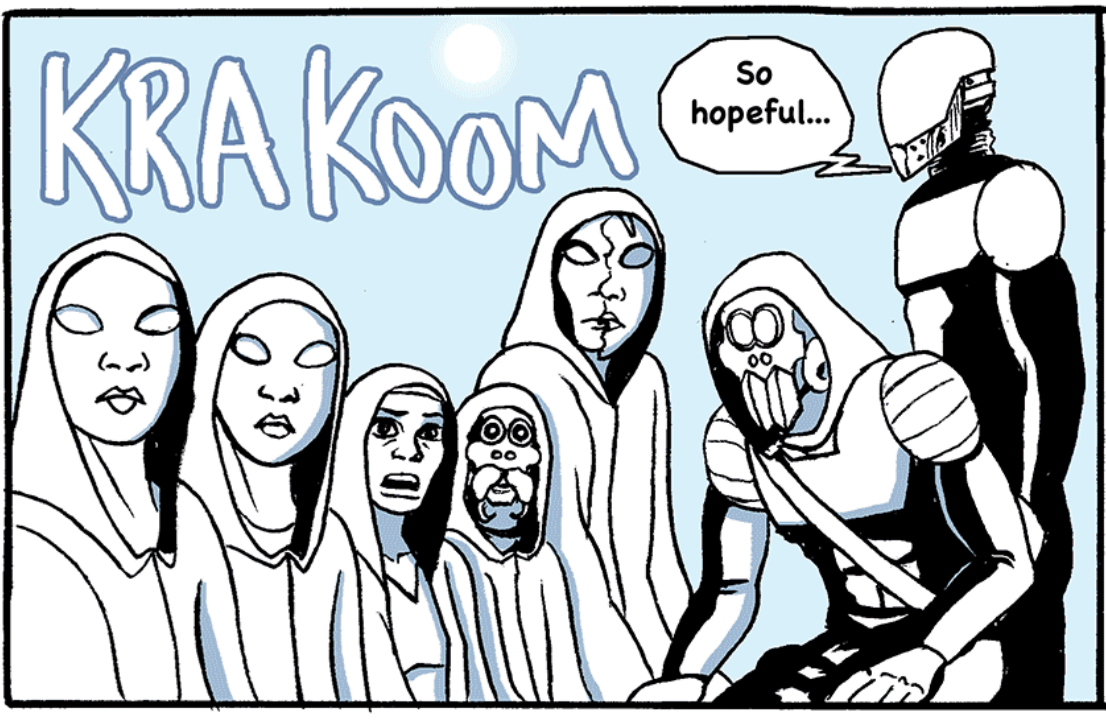

So, this is the girl who survived the bite?

Yes. I thought that she would be the perfect replacement for you.

She's the perfect specimen!

KRA KOOM

So hopeful...

...But nothing is coming through the Gateway today. Now, back to your sister... Did you know that she did not consent to have her body destroyed, in the event of an Organism contamination?

THAT is bullshit! She told me herself that she DID NOT want to become a science experiment, or ADMIN A's plaything!

So, what's your plan now?

CODE RED!!

Ha ha ha ha ha
HA HA HA HA HA
HA HA HA!

CODE RED!
CODE RED!

You can ask Boris yourself!
